

cartesian\_cord\_to\_polar

```
graph LR; A[cartesian_cord_to_polar] --> B[cartesian_to_polar]
```

A diagram showing a mapping from a source function to a target function. On the left, a gray rectangular box contains the text 'cartesian\_cord\_to\_polar'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'cartesian\_to\_polar'. Both boxes have a black border.
